Thetis

'RESIDENTIAL-SIZED' NEVER HAD IT THIS GOOD

KEEP YOUR EYES PEELED for *Thetis*, a 163-foot Turkish-built Nereids motoryacht, when you're hanging out at your marina this summer; though Ardell and Yachting Partners Intl. recently

sold her to a buyer in Florida, the proud new owner plans to cruise the vessel extensively in the Pacific. While on board, passengers will enjoy unparalleled luxury, including spacious staterooms, flat-screen TVs and modern furnishings throughout, tasteful décor, a full-size bathtub in the owner's suite and a bar on the upper deck for those nice days (although every day is probably a nice day when you own a 163-foot yacht).

Most impressive (although also a necessity when purchasing an ocean-going vessel such as *Thetis*) is the range she is capable of: The boat can travel 5,400 miles before taking a breather.

For more information about its range of yachts (including dreamboats and daydreams), contact Ardell Yacht & Ship Brokers; the company recently handed out its version of the Oscars and is happy to put you in touch with winners Jeromy Mold and Jim Elliott. ♡
